INSTRUCTIONS FOR USE

The first aid box can be used as a portable or wall mounted first aid box. The box is designed to carry regulation first aid kits. The latch can be locked to secure the contents.

WARNING

The first aid box is only intended to carry regulation first aid kits. It is not intended for any other purpose. The box should be secured to a wall by sufficiently sized fasteners to ensure it does not fall off. It should be cleaned and maintained regularly to avoid contamination of the contents. Should you be uncertain of the first aid box's application, please consult your safety officer or the manufacturer.
